To whom it may concern

## CONFIRMATION LETTER

This is to certify that the **International School of Medicine (ISM), International University of Kyrgyzstan (IUK)** is a duly recognized and internationally accredited medical institution.

The university is officially registered in the **World Directory of Medical Schools (WDOMS)** and is recognized by the relevant educational authorities. It operates in accordance with internationally accepted standards of medical education.

The curriculum followed at **ISM IUK** is designed in compliance with the guidelines of the National Medical Commission (NMC), India, including the prescribed structure of **4.5 years of academic study followed by 1 year of compulsory clinical internship**. The medium of instruction is English, and the program ensures comprehensive theoretical knowledge along with practical clinical exposure as per international norms.

We further confirm that many of our graduates have successfully cleared the **Foreign Medical Graduate Examination (FMGE)** conducted in India and are currently practicing medicine after obtaining the required registration from the appropriate authorities. This letter is issued upon request for official and verification purposes

This letter is issued upon request for official and verification purposes.

Sincerely,  
Rector of IUK:

E. SAVCHENKO
